William Gruenwall and Paul Cramer Met Death in a Trench.

CRUSHED BY FALLING EARTH.

Two Companions in the Pit Escaped Death in a Miraculous

Two men were crushed to death at Thirteenth and Paim street streets at 5.35 of 6.55 Monday morning by the caving in of a trench. The dead men are:

WM. GRUENWALL, German, laborer,

PAUL CRAMBR, French, laborer, single; age 28; boards at Rundes' boarding-house, Broadway and O'Fallon street.

John O'Connor and James Hennessey, fellow-workmen, escaped death miracu-

wall. Hennessey crawled into a water main and escaped the weight of the earth, while O'Connor, who was standing on the edge of the embankment, was precipitated, with the falling earth into the pit. Beyond a severe shaking up his injuries were trifting. The cave-in occurred directly in front of the Superior Ice Co. The trench was being dug along the line of the Benton and Bellefontaine road and a few feet north of the accident went under that line. The men had been at work in the trench since 7 o'clock. At the time of the accident they were "underdigging" to permit soldering of the pipes which were being put in as fast as their work was finished.

Without the slightest warning a portion of the east side wall 3 feet wide by M feet long fell in like a flash and covered the three men. Cramer was thrown on the ground and his life crushed out by the terrible weight of the falling earth.

Greenwall was found standing almost street, crushed to death.

The escape of Hennessey was miraculous. When the earth fell he was within a foot of the open end of a large water main which had just been laid. He was thrown down by the weight of the falling earth and covered up, but had the presence of mind to partially crawl into the main. When dug out his lower limbs were slightly bruised. At the Dispensary it was found that he was only stunned and Drs. Newcomb and Mack said that he had not received the slightest injury.

As soon as the accident occurred a number of laborers sprang into the trench and under the direction of City Inspector Jas. H. Ely began digging the mud out. Five minutes furtous digging uncovered Cramer's body. The men lost heart when they saw he was dead, but they kept at their work heartily and in five minutes more Gruen-wall's body was found in its grewsome posture.

Hennessy, owing to his peculiar position, was not found for twenty-five minutes.

When Hennessey was pulled out he was more scared than hurt and Dr. J. H. Hell-wig of the City Dispensary was passing the spot at the moment the accident occurred and attended O'Connor and Hennessey. The latter would not be satisfied he was unin-juyed until he rode in the-ambulance to the City Dispensary.

While the laborers were digging out their companions an immense crowd gathered about the spot. It required the efforts of Sergt. Leonard and a squad of officers to keep the people from interfering with the search.

The bodies of the victims were removed the Morgue. An inquest will be held lesday.

Gen. McIver is now in the city, having thrown up his commission in disgust and hastened from Denia to Washington expressly to present his charges to President Cleveland. He unexpectedly found the President absent, but, after telling his story to Mr. Uhl, Acting Secretary of State, he was directed by Mr. Uhl to put his charges in writing, which he has done, against the Consular Bureau, and particularly the Chief of the Bureau, Walter E. Faison. Edward I. Rennick, the Chief Clerk of the Department, is also involved. "It would not do for me," said Gen. Mc. I have been obliged as an American and as a man to lay before Mr. Uhl. Proofs must be reserved for the official investigation. I have been forced to conclude that certain officials in the Consular Bureau in Washington are in league for other than political reasons with certain American consuls abroad. I have here letters and documents which will prove all that I charged."

### AN INFERNAL MACHINE.

One Sent to Mrs. Nattie Chambers Centralia, Wash.

TACOMA, Wash., July 3.—Mrs. Nattie Chambers of Centralia has received an infernal machine. Her father claims the box containing the machine was addressed to her by the Rev. B. F. Fuller, a Christian Church minister, who, he alleges, was jilted by Mrs. Chambers about a year ago and was last heard of at Raleigh, N. C.

A year ago Fuller promised to go away, the father states, and not press his suit longer, but later when he learned that rumor coupled Mrs. Chambers' name with that of William Hale of Centralia, he wrote her several letters objecting to Hale's attention, it is claimed. No attention was paid to his missives, ami then the infernal machine arvived. It corsisted of a box made to hold a physician's thermometer with a piece of sand-paper (under the lid. A fullminating cap, a parior match and a bit of rubber band were so arranged as to ignite the match and cap and cause a large dynamite bomb just beneath the cover to explode when the hid was withdrawn.

The country postmaster's curiosity probably saved the woman's life, as he pried open the box when he saw the end of sand-paper protriding through a break in the package. The postal authorities and the United States Marshal are investigating with a view of arresting the sender of the machine. Rev. Fuller has born a good reputation, and it is not generally believed that he sent the box.

## RUIN IN THE STORM'S TRACK.

Appalling News from Points in Missouri, Kansas and the Indian Territory.

Reports of devastating storms during the past three days come from points covering a large territory and show that the entire eastern watershed of the Rocky Mountains, from the Nebraska and Iowa lines to Texas, were swept by wind and rain. Friday night the severest blow came. Reports of loss of life and destruction of property came with every telegram to the Post-Dispatch, and the downpour, first regarded as a blessing, grew into a wave of devastation. Flelds of grain that promised the most bountiful yield in many years were swept bare of vegetation. In several instances the seas of rain were abetted in their work of destruction by togradies. of destruction by tornadoes. It is too early yet to sum up the loss, but the total is ap-palling, and those to whom the angry elements spared life have little left to sustain it. The stories of storm are so similar that a statistical summary is all there is left to

The storm focus embraced an area of 200 square miles, with the southwestern corner of Missouri as the center. The greatest loss of life is reported from Winona, Mo., where eleven corpses have been found, with as many more missing.

three lives.
This total will be increased when the re eding water permits a thorough search. The loss in property can be placed in the millions. Dwellings, fences and farm buildings were carried off and highway and rail-

Milwaukee's Communication Out.

MILWAUKEE, WIS., July 8.—As a result of last night's storm the only means of quick communication this morning was the long-distance telephone. The Western Upion lines, as well as those of the Postal and the Chleago and Milwaukee Telegraph companies were prostrated to such an extent that aside from the telephone, railroad trains were the best substitute available to move the staggering accumulation of commercial messages and press dispatches. From about 6 p. m., Sunday, all through the night and well into the business day Monday the telegraph officials seemed unterly helpless to straighten out the confusion and wreck. So apparently inextricable was the tangle that matter offered to the Western Union at outside points for Milwaukee and other points was returned to the wires. The situation was a forcible reminder of the great bilisand in New York in which Roscoe Coukling lost his life, and in which the telegraph companies were brought to a standatil, the single avenue of electric communication being left to the long-distance telephone.

The failure of the telegraph wires between Milwaukee and Cheago had the CONTINUED ON PAGE TWO.

About Jefferson City, Mo., many square the opposition of the Government and of the distilleries, but a bill embodying the second proposition seemed to be in a fair try's objection, when, after the closing de-bate, to the surprise of everbody, a bill abolishing taxes on drinks containing less than 15 per cent of alcohol passed by a large majority. The measure doubles the alcohol tax in order to balance the budget until the organization of a State monopoly. involves the suppression of absinthe bitters, "pick me ups" and many kinds of liquors. The bill probably will pass the Senate with slight modifications.

The recent increase of alcoholism in France created a sentiment in favor of drastic measures. The amount of absinthe annually consumed has nearly trebied since 1837. Nervous diseases and insanity traceable to alcoholic poisoning have increased in like ratio. Besides, a new source of revenue was needed. The state monopoly in alcohol will raise, it is estimated. 13,000,000 francs (122,000,000) annually more than the present system of taxation. Premier Ribot, originally most hostile to the scheme, but not daring to oppose the majority of the chamber, has accepted the law. Great pressure was brought to bear on him in the form of opinions of medical men and specialists on insanity.

Poincare, the Minister of Public Instruction, recently appointed a commission to inquire into the best means of preventing the increase of alcoholism. The result of the investigation is still kept secret, but an influential member tells the Post-Dispatch correspondent that the commission has agreed to recommend the immediate introduction of anti-alcoholic teaching into the male and female secondary schools.

A large temperance society was recently organized under the auspices of the medical profession to combat the use of spirituous liquors. Owing to its reasonable methods of propaganda and the absence of intolerance or fanaticism, the society is progressing rapidly.

During the years of our engagement I never paid the least attention to other men; never so much as shook hands with one, and I gave up friends and everything for him.

HAS ALL THE PROOF.

Col. MacDonald denies that he ever made a proposal of marriage to me, but I have his letters and all the necessary proof of that. They are in possession of Mr. aGresche, my lawyer. He also says I came up behind him at the Pair Grounds about four years ago when he was in company with two ladies and struck him in the back. That statement is made out of whole cloth. He was with Mrs. Bradford, living at 489 Page avenue at that time. I saw them there, but made no effort whatever to disturb them.

MRS. ROBERTS' STORY.
Mrs. Mamie Roberts, wife of W. L. Roberts, the Bouth Bide race track man, has pretty nearly as hard a tale to teli about Mrs. Watkins as Mr. R. S. MacDonald himself. Mrs. Roberts was married to Mr. Roberts thirteen years ago this coming September. Two years ago this coming September. Two years ago he began to stray from home, and took up quarters with Mrs. Watkins, who then lived on Pine street near Thirtieth. Mrs. Watkins moved from there to 3126 Morgan street, and in that house Mr. Roberts first appeared in the nature of a boarder.

Mrs. Roberts, becoming tired of her lonely fireside, went in search of her husband one Sunday afternoon. She was received by Landlady Watkins, who refused to inform her of the whereabouts of her husband, and told her that she could not see him.

Mrs. Roberts departed and returned a second time. This time she was met by Mrs. Watkins' son, a young man more than 20 years old, and he again in forcible language told Mrs. Roberts that she had no business there, and could not be admitted to see her husband. Mrs. Watkins had Mrs. Roberts has continued ever. since to abide with Mrs. Watkins had Mrs. Roberts alteres that she has frequently seen Mrs. Watkins at the South Side race track in company with her husband.

Mrs. Roberts says that her husband has not given her his support in a long time, but takes care of their child, a boy of 9, who is being educated at the Christian Brothers' College.

### And Wiped Up the Back Yard With Her Step-Father.

Frank Jordan of 4011 North Broadway called on his "best girl," Tillie Lobin of 3134 Lasalle street, Sunday evening. She is glad that he did for more reasons than one, as she claims his presence saved her from a beating and much vile abuse at the hands of her step-father. Fred Zimmerle. Sunday night, while seated with her lover on the back porch, her step-father came out of the house, and, she says, called her the vilest names and threatened to beat her, at the same time he ordered Jordan away. Instead of obeying Jordan is said to have grabbed Zimmerle by the back of the neck and literally wiped up the ground with him. Zimmerle had Jordan arrested, but as the former failed to appear in the First District Police Court Monday, the case was continued until July 8.

President's summer home, over the arrival of another little girl, which interesting event occurred at 4:30 o'clock Sunday afternoon. Monday, it is safe to say, the little stranger will be the general subject of conversation among all people in the vicinity of Marion.

The mother of Mrs. Cleveland, Mrs. Perrine, was not with her daughter when the child was born, but has been notified and will come to Gray Gabies at once.

The President's family now consists of three children, all girls.

Ruth, the eldest, was born in New York after the close of Mr. Cleveland's first term. She is now about 4 years old and is a pretty brunette, much resembling her mother.

Esther, the second child, was born at the White House about two years ago. Esther is a blonde and is very pretty. She is not so well known to the public as is her elder sister, whose pictures have been widely published.

The National Guard Pitches Its Tents at Camp Moore.

Special to The Fost-Dispatch.

MOBERLY, Mo., July 8.—The 1st Regiment of the National Guard of the State of Missouri arrived here at 1:30 yesterday afternoon, except Co. F, which arrived on the early passenger train this morning. So far the atmosphere has changed for the better, and the soldier boys have had splendly weather, a contrast with yesterday afternoon's excessive heat and previous rains. When the regiment arrived only the flank stakes were set by the detail sant here for that purpose, except the tents of Battery B, which were already upon a little higher ground. The latter comprises forty men. Camp Moore, with its many white tents, makes a pretty picture. There is no sickness of any kind and discipline is fully established and guards are posted regularly. Addit.-Gen. Wickham came up with the boys, and is in camp, together with Capt. G. F. Chae of Troop D. 3d United States Cavairy, who is the inspecting and reviewing officer detailed from the regular army. When the regiment arrived here yesterday it made a short march to camp, using the best paved streets for the purpose. Orders were given to break ranks for dinner and to report in twentry minutes. Dinner being over and time up, the bugle sounded to "fall in." The camping ground was reached in a few minutes, and by 5:30 all the tents were ready to "bed down," and Camp Moore was established. All is needed is a continuation of good weather to make this camp of instruction a great success.

UNKNOWN STRANGER. The Storm in Chicago.

CHICAGO, Ill., July 8.—A furious wind and rain storm passed over Chicago at 8 o'clock Sunday afternoon. The day was intensely, hot, and as many people were on the lake in sail boats it is feared some were drowned. Shade trees were broken, and awnings, signs, etc., were torn away. The telegraph and telephone wires in ail parts of the city were broken down. The wind storm lasted half an hour and was followed by a terrific downpour of rain, which flooded cellars and ran the streets full of water. No trace has been received of Charles Klein, John Ross and Charles L. Shook, who were out in a row boat, and it is supposed they have been lost.

Bob Terrill and John Fitzgerald were capsized in a row boat and would have been drowned but for a tig. Alec Lonto, engineer of the tug, was almost drowned by Terrell while rescuing him.

ALMOST STARVED. The Perils of a Fisherman and His Family Adrift at Sea.

NEW YORK, July 8.—The steamer Ballardine, which arrived yesterday, when 100 miles off the Capes of Delaware, fell in with a small craft flying signals of distress. The captain took on board Joseph Dallas, a Bermuda fisherman, his wife and two children, all nearly starved. The man had started to move to another part of the island and put on board only a few provisions. A storm which came up took him hundreds of miles out of his course and they had not seen any other vessels to replenish their provisions. They had drifted nearly three weeks and nearly killed themselves eating and drinking when taken on board the Ballardine. The captain wished to bring them to New York, but Dallas would not consent. He was given water and provisions and took to his boat again.

FLED FROM FOUR MEN.

ecial to The Post-Dispatch. NEW YORK, July 8.-Cuban advices report that four young insurgents went to the town of Chamas, in Santa Clara province. Being apparently unarmed, they were permitted to approach within hailing distance. The Sergeant of the garrison went out to meet them and recognized his rival to the hand of a fair young Cuban woman.

"I have come to challenge you to a duel," said the Sergeant's rival, stepping forward. The young man's companions suddenly drew revolvers and killed the Sergeant. The soldiers rushed to the barracks' entrance, but in their excitement forgot to fire on the young Cubans, who emptied their revolvers at the soldiers, killing seven. The others, believing that a large band of insurgents had suddenly surrounded the barracks, threw down their arms and fied. town of Chamas, in Santa Clara province.

It Prevents the Decisive Operations
Against Insurgents at Present.

PARIS, July 8.—The Gaulois to-day publishes an interview with the Spanish Premier, Senor Canovas del Castillo, in which the latter is quoted as saying that the climate of Cuba prevented decisive operations against the insurgents for the present. The Premier added, according to the Gaulois, that the rebellion was entirely the work of foreign adventurers, but he was glad to say that the insurgent supplies of arms and ammunition, coming chiefy from the United States and neighboring countries, had diminished owing to the correct and energetic action of the United States
Government.

The rumor of a proposed reorganization of the Democratic Central Committee of St. Louis, with various amplifications and more ical quidnuncs. It was said Monday morn

cal quidnuncs. It was said Monday morning that meetings had been held recently at Chairman Maffitt's office, at Col. John H. Overall's and the Delmonico, at which the question was discussed and that Rolla Wells and W. H. Swift had been suggested as two of the men to lead the movement. James Bannerman and Dr. Frank Lutz were also mentioned in connection with it.

At the next meeting of the committee it was said Tom Barrett was to be present with a proxy. He was to move that the committee adjourn sine die, if enough votes could be secured to carry it a new organization was to be formed on a plan to be adopted hereafter.

Col. Overall and Mr. Wells both said that they had heard no talk of the kind recently, and the whole matter was news to them. They had attended no meeting at which the question was discussed, and any rumor connecting them with it was unfounded. Mr. Bannerman said he had heard some talk of a reorganization of the committee, but he knew of no recent movement of the City Com-Buggested.

Hugh Brady, Chairman of the City Committee, said that he knew of no movement of the kind. He did not take much stock in the rumor.

### CHRISTIAN ENDEAVOR.

# Delegates of the Society Here En Route to Boston.

Christian EndeavorHers saw the city in squads Monday. Each squad was headed by a commander thoroughly sequainted with St. Louis, who took the visiting delegates to the many places of interest. After having walked through Bellefontaine Cemetery, visited the Barracks, inspected the Eads Bridge and admired the beauty of Forest Park, all were glad to reassemble at headquarters and prepare for their journey to Boston.

At 9 o'clock Monday moning the visiting delegates who were anxious to see St. Louis gathered in the pariors of the Laclede Hotel. They were divided into squads and then began their tour of the city. Fully 100 delegates from Arkansas and Texas are now in St. Louis. Most of them arrived Sunday, but a few stranglers came in Monday morning. All in the city repaired to the Second Baptist Church Sunday afternoon, where a mass meeting for the reception of delegates was held. Plans for the International Christian Endeavor convention at Boston were discussed, after which addresses of welcome and thanks were made by the home and visiting delegates.

Passenger Agent Griffin of the Wahash Railroad Monday prepared the two special trains for leaving at 5:30 and 6:30 in the evening for Boston. Both trains carry 460 delegates. The 5:30 train is in charge, of Mri A. H. Frederick and Mr. W. H. McClain of the St. Louis Union superintends matters on the second.

About 275 delegates will represent the St. Louis Union, while 75 are here from Arkansas and Texas.

The popularity of "Fra Diavolo" was again attested last night at Uhrig's Cave again attested last night at Uhrig's Cave by the largest audience that has visited the Cave this season. The opera was presented in attractive style, and the different musical numbers were exceptionally well rendered. The honors of the evening were shared by Miss Helen Bertram as Zerlim, William Pruette as Fra Diavolo and Jerry Sykes and Frank Deshon in their robber roles. Miss Bertram was in excellent voice, She acted with more than usual grace and vivacity, and gave the character a strong interpretation. Pruette made a great brigand, and met with warm applause for several of his songs. Jerry Sykes and Frank Deshon kept the audience in good humor in their funny banditti machinations. Their duets took the house. At the end of the last act Pruette and Sykes were compelled to respond to a curtain call. Their work was highly commended. The provisions made by Manager McNeary for the protection of patrons in stormy weather are evidently appreciated, for the attendance on rainy nights is largely increased over any previous year. right.

In his sermon on "The Duties and Privileges of Citizenship," Rev. Dr. Wirt King, pastor of the Lindell Avenue Methodist-Episcopal Church, yesterday morning, laid down salient points which should govern all men as relations to their country and home. The duties are suggested by the privileges and by the dangers which lift their menacing heads along the rim of the national horizon."

To become Americanized is the first duty of everyone, he said. This unwillingness on the part of foreigners to become Americanized, the doctor said, has given rise to such factors in politics as the Irish vote, the German vote and the Catholic vote.

The principles of Christianity should also be defended by American citizens. The spirit of communism and socialism should be throttled, and the fight against the saloon, the greatest enemy to personal liberty, carried on with alacrity. Archbishop Kain Modifies the Bules

The rule prohibiting such attendance has never been uniform among the Catholic clergy, and Archbishop Kain's decision removes all further difficulty. The Archbishop came to this conclusion after perusing a copy of the G. A. R. burial service. F. L. Controversies on this subject have been frequent within the past years, and many a funeral procession has been blocked by some priest, who would not allow the cortege to enter the church or cemetery wearing the uniform of the order upon the pleathat it was an infraction of the rules and principles of the Catholic Church.

A pitiful story is that of James A. Wilson, 19 years old, who shot himself through the head at Bonne Terre, Mo., on the night of July 4, after a lover's quarrel with his sweetheart, Miss Minnie Turley. Death was almost instantaneous. He wrote a few lines to Miss Minnie, pinned them to his coat and took his life. Wilson had been residing in Farmington, Mo., of late.

On the night of the Fourth he and Minnie spent the night at a party, and during the progress of a walts the girl told him that she would have nothing more to do with him. He threatened to commit suicide, but she paid no attention to him.

He left the house without her, and by the light of a burning letter from his mother wrote the few lines to the girl who lilted him. The address of his mother was destroyed by the flames. Wilson was buried at Farmington Saturday.

### ASSESSING THE RAILROADS.

It is understood that the State Board of Equalization will take up this week the assessment of the railroads of Missouri for taxation purposes. The votes in the Board on this question will be watched with keen interest by the people

As an index of how the people feel on this subject, we invite the attention of the members of the Board to the following resolution, which was adopted in the Missouri House of Representatives on Feb.

21, 1893, by a vote of 85 ayes to 22 noes:
The railroad property of this State being assessed at less than 25 per cent of its actual value, while farming property is assessed at over 40 per cent of its value; therefore, Resolved, That the State Board of Equal-

ization are hereby directed to increase the late of taxation of railroad property until such property shall bear its equitable share The House was at that time strongly

Democratic and the resolution was adopted by a majority of Democratic votes. In January, 1895, the House being then Republican, a resolution was adopted by an almost unanimous vote demanding an increase of "the taxable wealth of the railroads until railroad property shall bear its equitable share of taxation."

There can be no doubt that this demand, put forward by two different Houses of Representatives, expresses the people.

The Post-Dispatch has shown from the

figures submitted to the Railroad Commission by the railroads themselves that their property is not assessed at an equitable ratio with other property. The farm property of Missouri, for example is assessed at about one-third of its actual value. It is a high estimate to place the present valuation of railroad property at one-quarter of its real value. Another fact which the State Board of Equalization can legitimately consider is the railroad lobby and its relation to egislation, nominating conventions and the like. Any interest that can and does maintain a regular salaried lobby at Jefferson City can afford to pay more If it did not have more money than it requires for the legitimate purposes of railroad business, the lobby would not be there. It is better that this surplus money should go into the State and County treasuries than into the pockets of the lobbyists and their legislative "cattle."

### NEGLECTED STREET IMPROVEMENTS. People who tried to get into Forest

Nearly a year ago the Post-Dispatch exposed the insufferable slowness of the reconstruction of Union avenue, the nataral avenue to Forest Park. This fine horoughfare had then been closed to traffic for two years. It is still closed to traffic. On a part of it only the founda-tion stone has been laid. A large section of it next the park has not been to e workmen, so that when the part being made is completed—if it is ever letel—it will be practically useless to the public except as a western outlet of Portland and Westmoreland places—private residence places. Except in dry weather, when the dust is infolerable, there is no passable road to Tower Grove Park west of Grand avenue.

The Interstate Drill at the Fair Grounds which closed yesterday with the distribution of prizes to the winning companies was a brilliant success in every way.

There was not a jar in the orderly execution of an excellent programme. No incident occurred to mar the har-mony of the week. ### ORGANIZATION A NECESSITY.

The conference of Democratic editor of Missouri who favor free silver coinage which was held in Sedalia last week, called another conference for the 23d of this month to perfect an organization and to take further steps to give practical effect in the party councils to the free

silver sentiment among Democrats. The adjourned conference should attended by every Democratic editor in the State in sympathy with its objects. It is not sufficient to gain the object of the free silver Democrats of Missouri that nine-tenths of the voters of the party favor that object. Mere numbers do not assure victory in party action. There must be organization and practical work to give effect to the sentiment of the

majority. The fact that the party machine in the free silver and that the Federal patron- they be De age is at their disposal make it neces sary for the free silver men to organize for work. The further fact that their opponents have started a movement to effect a thorough organization increase

this necessity. The editors are the leaders and molders of public opinion. Their influence in the councils of the party and among the voters is potent. They should set an example of organization and vigorous work which will attmulate the rank and file to give effective support to the cause

### ANOTHER JAPANESE BLUNDER.

The recall of Lieut. O'Brien, United military attache at Peking, brings to light unexpected official confirmation of the accounts of the Port Arthur atroc ities which were published in the Post-

Lieut, O'Brien was attached to the Japanese army during the war and was witness of the conduct of that army at Port Arthur and elsewhere. In a letter to Minister Dun he describes what he saw, and his testimony corroborates in every particular the account of the massacre perpetrated there by the Japs which Mr. Creelman sent the Post-Dispatch and World. If any exoneration of the charge of sensation-making brought against our war correspondent were needed this evidence of an unprejudiced

army officer would furnish it.
It is understood that Lieut. O'Brien's recall is due to the sensitiveness of Japan on the subject of these atrocities. Japan grace, and, it is reported, has intimated that she is not pleased with Lieut. O'Brien and would regard his recall as a favor.

This attitude of Japan towards Lieut. O'Brien emphasizes the blunder the Japanese Government made in failing to follow up the strong words of regret uttered by Viscount Mutsu with the pun-ishment of all who were responsible for the Port Arthur outrages. The government lost the opportunity of rehabilitating itself in the esteem of civilized na tions by a vigorous repudiation of un-civilized methods of warfare. Its resentment of references to the atrocities now merely deepens the stain which its prac-tical indorsement of the atrocities fixed on the national honor.

The Miami News calls Mr. Zeveley' attention to the fact that "every one of the thirteen counties in the Eighth Dis-trict have declared for free silver at also for the resignation of Mr. Zeveley, should be continue to marepresent them." Some time back Mr. Zeveley

Railroads that find themselves out of pocket through carrying Christian Endeavorers too cheap should console themselves by reflecting on the assistance her have given the cause of religion. Though corporations have no souls, individual members have, and it may be a great convenience in the by-and-by to many a railroad capitalist to be able to prove that his road carried Christian Endeavorers for less than the regular price.

The reprint in the Post-Dispatch's esteemed Sunday contemporaries was judiciously selected, and the news they republished from the Post-Dispatch of Saturday was good, but of course they could not hope to approximate the big spread of fresh and original matter enjoyed by the Sunday Post-Dispatch readers. The Post-Dispatch's unequaled cirors. The Post-Dispatch's unequaled cir-culation requires that it should always be the best paper.

Mr. Watterson is quoted in Chicago as saying that free silver received a body blow in Kentucky. The fact is that it was the Democratic party of Kentucky that received a body blow, and if it should stagger into an open grave it will not be ifficult to fix the responsibility for that nhappy conclusion.

Linn County Is for Silver.

From the Brookfield Argus,

The St. Louis Post-Dispatch of yesterday said there are only three counties in Missouri, as far as heard from, that are opposed to holding a Democratic State convention, and gave Linn as one, based upon the returns from the Chairman of the Coun-ty Central Committee. This is a mistake. At least nine-tenths of the Democrats are for silver, and at least three-fourths for a convention. LETTERS FROM THE PEOPLE

A Clear Political Forecast

A Glear Political Forecast.

To the Editor of The Post-Dispatch.

Not only the Democracy, but all men who favor honest money and good government, must read the signs of the times in the Post-Dispatch, the organ of the masses. We can no longer expect an honest, unmissed expression of public opinion and public needs in the old line organs of either party in your city. Without regard to party affiliations, they are all alike in the grasp of the broad and greasy hand of boodle, and their utterances upon all financial questions are dictated by their masters, the corporations and money changers. The people must look elsewhere for a mouth-plece.

I travel from Boston to San Francisco and from Galveston to Duluth, visiting every State in the Union at regular intervals, and have been at great pains to sound the popular mind upon the all-engrossing subject of the day, the silver question, and I believe I have exceptional concertuities for making its an ecurate.

Pass the Bill.

To the Editor of the Post-Dispatch.

The opposition of the Republic to the bill now before the Municipal Assembly, giving a small salary to the internes at the City and Female Hospitals, is very characteristic of that paper and the element that controls it. The fact that young physicians can be obtained, who would be willing to work for the experience alone, argues nothing. The same can be said of any city position. Men could be found who would fill them for smaller salaries; at the same time there are many worthy young men who position. Men count of rotate the same time there are many worthy young men who are debarred from competing for the position of junior assistants on account of their limited means; and as the rules prohibit any outside work on the pair of the physicians, they have no possible means of meeting their current expenses. The great hos pitals of Europe salary their physicians notably, the City Hospital at Hamburg which maintains a staff of thirty physicians, who receive a salary of about \$15 per month. The junior physicians at the \$15 Louis City Hospital obtain their position only by competitive examination, showing

I have been a close and constant reader of the St. Louis Republic for many years, with a leaning strongly in its favor; but I am constrained to say that at present and for some time past the course that it is, and has been pursuing in regard to the silver question is more harmful than the utterances of the most radical gold monometallist paper. It appears to me an outlet for cunning assaults upon silver and those who favor it. Its antagonism to the ratio of 16 to 1, looks like a subterfuge, inasmuch as opposition to this ratio cannot add to the strength of the bimetallic wire of the Degracents party but fuge, inasmuch as opposition to this rate cannot add to the strength of the bimet. HENLEY-ON-THAMES, July 8 .- The Henley regatta begins to-merrow. Cornel at 3:30 of that day will meet the famous Leander Boat Club, probably the strongest on the river. In view of the depressing accounts circulated regarding the health of the Cornell crew, Charles E. and said:

"I don't know whether the Cornell crew will be able to row to-morrow. The fact is we have two sick men among the crew who ought not to row in their present condition. They are Hager and Fennell. The latter was in a high fever yesterday evening. The two men, however, may be all right to-morrow, as I was afflicted in the same way, and I felt all right one day and bad the next. But if our boys were fit I should feel very confident that there is not a crew on the river equal to them. They have been steadily improving in practice and make faster time at each trial. In spite of this, I am unwilling to take the responsibility of allowing sick men to strain themselves in a race. If the invalids are not better to-morrow we shall have to put in substitutes or else scratch.

"I have done everything possible to keep the men'n condition, but they have been unable to contend with the climate and the little worries to which they have been subjected. If I had the thing to do again I would request permission to bring twenty-five men-here and keep two crews in training."

SARATOGA, N. Y., July 8.—All the arrapgements are completed for holding the twenty-third annual regatta of the National Association of Amateur Carsmen at Saratoga Lake July 17 and 18. The list of entries is the largest in years and the regatta promises to bring together the amateur cracks of the country. The importance of the association's meetings have grown rapidly in the past few years and where there were only ninety clubs last year included in its membership there are now 125.

The race course is beautifully located about four miles from Saratoga, and is surrounded by high bluffs, which form a natural grand-stand for an uninterrupted view of the course. The lake itself is about nine miles long and three miles across at its widest part. The course is situated at the extreme Northern end, and it well sheltered from wind. It is one and one-half miles long, all races being rowed three miles with a turn, so that spectators may see both start and finish, and it is not necessary to use steamboats, which might interfere with the races.

The programme for the coming event is: Intermediate and senior double scull race; senior pair-oared; intermediate and senior four-oared shells; intermediate and senior eight-oared shells; latermediate and senior eight-oared shells.

### TO BUY BALL PLAYERS.

# unic Mack Offered Von der Ahe \$25,-000 for Three of the Browns.

President Von der Ahe refused the princely sum of \$25,000 for three of the Browns' best players Monday morning. Connie Mack, Pittsburg's manager, was ini consultation with the boss President for over an hour trying to persuade him to part with the services of Breitenstein, Petis and Ely, but he left without even a promise that his tempting offer would be considered.

This statement was given out to the press by Becretary Muckenfuss. Mack argued with Mr. Von der Ahs that it was impossible for the St. Louis club to get any higher in the race and that the profits would be decidedly small from now to the close of the season. He said that \$25,000 would compensate Chris for the disappointing showing of his team, and that he could by expending half of it this winter get a creditable team to represent St. Louis next season.

This means that the Pittsburg club is after the championship, and money is no hoject if that end is attained. Hawley and Hart have been the Pirates' mainstays in the box, but both have been overworked, and there is a pressing necessity for another Irst-class pitcher. Merritt has done good

a catcher. Ely also outclasses Monte Cross. Mack expressed himself as somewhat disappointed, but he has not given up hopes of getting the men he is after.

"Pittsburg wants the pennant, and we must have several stars to help us win," said he. "Watch developments and you'll get an item,"

### TRIED TO KILL HER CELLMATE

### Emma Rodgers Badly Beaten in the Jail by Minnie Skinner.

Guards at the jail entered a cell in the female department just in time to restue Emma Rodgers from the murderous assault of Minnie Skinner, her cellmate. Last Friday night the Rodgers woman was arrested on a charge of stealing a diamond stud from a prominent real estate man. She gave information to the police that led to the arrest of Minnie Skinner. Both were locked in the same cell. Sunday the jail guards were startled by a series of screams and on opening the cell door found the Rodgers woman on the loor with the Skinner woman trying to knock out her brains with a stool. The Skinner woman is now in a dungeon.

B. Clark, formerly an engineer at the Swift Packing Works, East St. Louis, was arrested Monday charged with an attempted assault upon Maud Wease, aged 8, daughter of a widow living on Exchange street. Joe Gesser, who claims to have rescued the kirl, swore to the warrant. Maud was not injured.

### THE RIVER'S RISE.

## Heavy Rains Add Rapidly to Its Depth at This Point.

ssissippi River is at the highest the gauge at the foot of Market street showed 17.1 feet. The present water is principally from the Gasconade and Osage Rivers, the former having risen fourteen feet in forty-eight hours, and the latter thirteen feet in nearly the same time. The present stage of water is about the full extent of the rise, as by Friday morning a fall of one foot is anticipated by Weather Forecaster Frankenfield.

Though very satisfactory to the steamboating interests, the rise makes no particular difference to them, as there has been a very good stage of water for some time, no lighters having been towed for three or four weeks.

### VIRGINIA AVENUE GRADE.

A Difference of Opinion as to Its Prop-A meeting of the Street and Railroad Committee of the Board of Public Improvements was held Monday morning to give a public hearing on the proposed grading of Virgin's avenue, between Meramec and Oeceela. The ordinance approved Jan. 19, 1892, provides for grading from the top of the hill at Meramec in a direct slope to Osceola. Property owners are divided in opinion as to the merits of this plan.

Ex-City Counselor Leverett Bell appeared in behalf of property owners representing 1,500 front feet urging that the grading be done in accordance with the ordinance. H. B. Lawrence represented the opposing faction, which wants the hill graded down on both sides from the middle. Mr. Lawrence contends that if the original plan was adhered to the grade at the bettom of the hill would be four to five feet below the street level, and he intimated that damage suits might result.

The committee took the matter under advisement. nents was held Monday morning to give a

### BELLEVILLE NEWS.

Henry Reuss, a brother of A. C. Reuss of Belleville', committed suicide yesterday at his farm in Shiloh Valley, shooting himself in the head with a revolver. He was blind, and it is supposed that his affiction rendered him despondent and caused him to destroy himself. The rash act was committed early in the forenoon. He took breakfast in the morning as usual, and at the conclusion of the meal returned to his bedroom, where he fired the stall shot after he had thrown himself upon his bed. Refore he shot himself he doubled up his coat and placed it under his head to prevent the blood from soiling the bed clothing. The deceased was 52 years of age and numarried.

## DEATH OF MRS. M'ADAM.

Bhe Passed Away July 4 at the Bipe Old Age of 85.

Mrs. Catherine McAdam, widow of the late Edward McAdam, one of the oldest and best known residents of Richmond, Va., died in this city July 4 at the age of 86.

Deceased came to America from Limerick, Ireland, 75 years ago, and settled in Virginia. She was a woman of rare qualities of heart and mind. She was the mother of seven daughters and three zons, eight of whom survive her. She had eighteen grand children.

One of her daughters is Mrs. John F. Cahill, wife of the ex-Mexican Consul in St. Louis. The others live in New York, New Orleans, Chicago and in Maryland. The funeral was held Saturday, interment at Calvary by the side of her husband, who died in this city years ago.

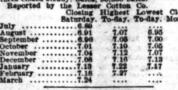

# LIBRARY OF THE ST. LOUIS.

A letter has been received by Secretary forgan of the Merchants' Exchange from the manager of G. P. Putnam's Sons of New York, who furnished the library of the steamship St. Louis, regarding the reported imperfections in the library. Immediately on the arrival of the St. Louis two of Putnam's clerks went over the library volume by volume. They withdrew eight volumes, one of which was a duplicate, which will be replaced. Of the others three volumes had each a single loose sheet, which had not been caught in the binding, and four had the backs slightly sprung from careless handling of the passengers. All are being made good, and will be returned to the steamship library as soon as finished.

The epinion is expressed in the letter that such slight imperfections in a library of 2,000 volumes does not amount to much.

The Messrs. Putnam's Sons have been awarded the contract for furnishing a similar library for the steamer St. Paul. This library is being presented by the citizens of St. Paul, Minn. the manager of G. P. Putnam's Sons of

### PORT ARTHUR MASSACR B

lient. O'Brien's Letter Displeases Ja-

NEW YORK, July 8.—A special to a local paper from Washington, D. C., says: Lieut, M. J. O'Brien of the army, military attaches

M. J. O'Brien of the army, military attache at Peking, has been directed to return home and the fact is one which officers on duty at the War Department are discussing quietly but with much interest.

Lieut. O'Brien was attached to the legation at Peking shortly after the war between China and Japan began. He was selected by Lieut. Gen. Schofield. The course of the war would, it was believed, develop results which for military reasons it would be necessary to observe and report upon. Other countries would have their army and navy officers in China and Japan and the United States must be in a position to obtain the valuable information on the field and seas that these foreign representatives would secure.

tain the valuable information on the need and seas that these foreign representatives would secure.

Officials of the War Department will not speak frankly in relation to their unexpected action in recalling Lieut. O'Brien. They say that the war in China is at an end and there is little need of an army officer being retained in the Orient. They say also that it has never been intended permanently to keep an officer at Pekins. Considering the circumstances this explanation is not considered satisfactory.

Well-informed subordinates at the department intimate that the real reason why the officer has been recalled is a diplomatic one. They speak of the case with much caution, but one more talkative than the others hinted to-day that Japan has informed the State Department that Lieut. O'Brien wrote to Minister Dun relating to the alleged Japaneses atrocties at Port Arthur, in which letter, while speaking in a complimentary manner of the general character and conduct of the Mikado's troops during the campaign, he said he witnessed at that place shocking acts of violence and brutality on the part of the Japanese. The letter has not been published. Besides its significance in the present connection, it is, interesting, as the written testimony of an eye-witness of what took place at Port Arthur on the occasion about which so much has been said in press telegrams of Japanese crucity.

The letter is dated December 28. It reads in part:

"As to the unfortunate circumstances at the content of the said of the part."

ess cruelty.

The letter is dated December 28. It reads in part:

"As to the unfortunate circumstances at Port Arthur I can only speak of what I saw, of course, but I am sorry to say that that little is such as to lay the army open to the most severe consure. I have seen a number of cases of the killing of men who not only could have been made prisoners, without difficulty, but who were plainly unarmed and in a position of humble surrender. I have also seen a number of bodies whose hands were tied behind their backs. Also bodies very much mutilated and having wounds that indicated that they were killed with the bayonet when beyond question there was no resistance. I have seen these and other horrors, not by going where they were to be seen, but in the ordinary course of my observations of the battle while going to the forts and main points of interest. I saw no new acts of war on the 22d and 23d (November), except the looting of houses and stores. That went on until there was nothing left to loot."

The letter goes on to assign as a reason for the Japanese atrocities that the army had expected greater resistance than it met; that with such an idea the troop began to clear the way by force and that control over them was lost. The remark is made: "I do not think this excuse sufficient. Such acts have always met with cerisure and so must this case."

Lieut. O'Brien says some pleasant things of the army, which lessen but do not remove the sting of his words.

He dwelt upon the necessity of so arranging studies that one shall not interfere with the best treatment of another.

EUSTIS TALKS

PARIS, July 8.—The Figaro publishes an interview to-day with the United States Ambassador to France, the Hon. James B. Eustis, in which he is reported as saying that nothing has yet been decided as to his candidacy for the nomination for the presidency of the United States.

Respecting the Japanese-Chinese war, Mr. Eustis is quoted as remarking that he regretted that the Japanese had not taken Pekin. The story of a secret treaty, he added, between Japan and the United States was absolutely untrue.

"We have no treaty with Japan," he continued, "other than the arrangement modifying former treaties, and even this does not come into force for five years. Besides, the United States adheres before everything to the principle of non-intervention in European or Asiatic affairs."

With reference to the movement in Canada to separate the Dominion from Great Britain, Mr. Eustis said it rested entirely with the United States as to whether Canada should or should not be taken into the confederation of States.

But the people of the United States preferred to let the question rest, while at the same time saying to Great Britain, "No nonsense, or we will annex Canada."

Regarding the insurrection in Cuba, Mr. Eustis is reported as having admitted that American sympathies favored the insurgents, who found in the United States, unknown to the Government of that country, assistance of all kinds. In conduction, Mr. Eustis is quoted as saying: "It the insurgents can maintain the struggle for a year, I am sure that Spain will not have futilely spent her money on expeditions."

THE MONROE DOCTRINE.

It May Serve to Settle a Dispute Be tween France and Brazil. WASHINGTON, July &-The dispute be

ween Brazil and France over territory ad-acent to French Guiana and claimed by both countries is analogous to the trouble between Venezuela and Great Britain, and may call for a declaration of the Monroe doctrine. Since the recent conflict between French and Brazilian troops, the former have occupied the disputed territory.

Ybarra's Ambition.

NEW YORK, July 8.—A special to The World from Caracas says the news that Capt. Ybarra, the leader of the young Venezuelans and the noted chief of the Liberal party, has been in Mexico City, excites interest, as it is rumored he is using his influence there to obtain the moral support of Mexico for this country in its dispute with England. Gen. Ybarra was supposed to be directing a revolutionary movement, but President Crespos' friends assert that he has ordered a truce until Venezuela shall have regalned her territory now in English hands. Ybarra is said to have directed his friends to remain passive and allow Crespo to finish his term, and to have written that everything must give way in the face of the supreme importance of the English question, and that he has no other ambition now than to free his country.

France and Madagascar. WASHINGTON, July 8.—Documents received here by public men, including many members of Congress, indicate that strong pressure will probably be brought to bear to induce the United States to interfere to secure the settlement by arbitration of the dispute between France and the native Government of Madagascar.

LEFT TO DIE.

Small-Pox in a Negro Levee Camp Across the River.

MEMPHIS, Tenn., July 6.—Dr. F. S. Raymond superintendent of the County Board of Health, returned to-day from a trip over the river to a levee camp, where small-pox was reported. He tells a horrible story of the sufferings of four negroes who had been isolated in a swamp near the State line and left to die of small-pox.

In a tent pitched on stilts in mud and in water a foot deep he found the corpse of a negro man who died Thursday morning and by his side another victim in the last stages of the diease. In another tent were a man at the point of death and a woman almost exhausted from the strain of nursing him. The dead negro ws buried and the Mississippi authorities were telegraphed to remove the ohters, but they refused and they were left to die.

CHICAGO, Ill., July 8.—The reservoir of a gasoline store exploded and Mr. and Mrs. Gunwald were burned to death and their house consumed.

Poultry Diseases.
WASHINGTON, D. C., July &—Experts of the Agricultural Department have been carrying on an exhaustive investigation of carrying on an exhaustive investigation of infectious diseases among poulity. The prevalence of protoso among turkeys was the subject of a special inquiry. The results show that the disease attacks the young by preference and that infection does not take place later on. It runs no regular course, but varies in severity, duration and termination. Though restricted to the caeca and the liver, its action is severe enough to prove fatal to many affected turkeys. The disease process is always associated with a protosoan parasite of very minute size. Certain flocks only are affected, and the disease becomes perpetuated and diffused among neighboring flocks. The remedy recommended by the department is to entirely destroy the diseased flocks and obtain new animals elsewhere after a thorough cleansing and disinfection of the territory occupied by the diseased flowls.

# WOMAN SLAYER DREHER.

to clock Monday morning Charles F. her, who, on January 23, 1894, murdered tha Hunicke, his sweetheart, at 819 Madstreet, was brought into the Criminal rt for inquiry as to his sanity. He was afoot and clad only in a dirty pair of the trousers and a dirty white cotton t, thrown open at the neck, revealing an obtate tattooed design, representing a name and a child. In the front of the twas a huge piece of glass, over which man held his hand.

shirt, thrown open at the neck, revealing an elaborate tatiood design. representing a woman and a child. In the front of the shirt was a huge piece of glass, over which the man held his hand.

No sooner had Dreher been placed before the Judge's bench than he attempted to address the court, but was forced into a seat by Deputy Sheriffs Rollins and Ruler and temporarily quietad. It was not long before he began a tirade against everyone in the court-room, interspersed with boisterous obscenity and frightful oaths.

Attorneys Seidner, Dyer, Stanlus and Adams appeared on behalf of Dreher, and Attorneys Orrick C. Bishop for the State. The selection of a jury to hear the insanity inquiry occupied over two hours and during the entire time Dreher disturbed the court with his ravings and idiotic utterances, the most frequent of which was that he had "written a letter to God."

After shooting Bertha Hunicke, an abortive attempt to commit suicide was made by Dreher, who inflicted a slight wound in his own head with the weapon with which he had murdered his sweetheart. He recovered after a few weeks. June 20, 1894, he was sent to the insane Asylum on account of his queer behavior, and in the following August he escaped from that institution. He was recaptured at the house of his sister on Prairfe avenue after a struggle. He was again lodged in jail, but once more sent to the Insane Asylum on January 30, last. The Superintendent of the asylum on June 4 last addressed a letter to the Judge of the Criminal Court, declaring Dreher sane, and he was tred of shamming and was willing to stand trial. Later he changed his mind and another insanity inquiry was arranged, which came up Monday.

Before the case was called Dreher handed Attorney Adsms a letter he had written. It was a collection of idiotic expressions, vulgarity and blasphemy. Several experts have examined Dreher and of these Dr. Jos. L. Bauer expresses the belief that Dreher is shamming.

### KLIX SAYS HE'LL STAY.

Will Not Close His Restaurant on the Century Building Site.

Robert H. Klix is a restaurant keeps who claims he is far sighted regarding the value of real estate. Two years ago he se-cured the southwest corner of Ninth and Locust streets, a valuable leasehold, for Locust streets, a valuable leasehold, for three years for a song. His leasehold is a part of the site of the new million dollar "Century" Building, and when he was requested to vacate he indignantly refused. Architect Roeder of Chicago, who is superintending the tearing down of the old Pope's Theater Building and other structures occupying the half block bounded by Olive, Locust, Ninth street and an alley, and who drew the plans for the new building, Mr. Klix claims, threatens to tear him out of business and home.
"But he won't do it if I know it," he exclaimed.

"But he won't do it if I know it," he exclaimed.

Mr. Klix has two men engaged to keep the pavement in front of his restaurant clear. He issued a notice to Messrs. McCormick, Kligen & Rule, agents of the property, to remove a huge pile of rock from in front of his store, and claims he will bring suit for damages if the request is not granted.

"They are trying to make me shut up shop by hemming my store in with a wall of old brick and rock, but I won't do it, not if they duplicate the wall that surrounds China. I will stay here until April 1, 1886, when my lease expires."

The projectors of the Century Building have not yet decided what to do under the circumstances. It is probable that the Olive street portion of the building will be erected immediately and the spot occupied by Mr. Klix beautified when his lesse runs out, unless he changes his mind before then.

POPULISTS ARE WAITING.

Will Not Call a Silver Convention at Present. J. B. Follett, a member of the Populis State Committee, says that the reports that have been telegraphed throughout the country that the leaders of the party will soon issue a call for a People's Free Silver Convention, to be held in St. Louis, are, so far as he knows, incorrect.

"There was some talk of that sort previous

wention, to be held in St. Louis, are, so far as he knows, incorrect.

"There was some talk of that sort previous to the Memphis Convention," said Mr. Follett, "but I do not think the leaders have any idea of cailing a convention now. The Populists are waiting. They want to see what the Democrats are going to do. If they should come out and declare unequivocally for free silver it would no doubt have considerable effect on the action of the Populists. If they are controlled by the National Administration and adopt fits policy they will be wrecked beyond redemption. The Populists are watching the fight in the Democratic party with great interest, and I haven't any idea that they will do anything until they see how things are drifting. If there is any movement on foot for a convention of the kind indicated in some of the dispatches, I have heard nothing of it."

which followed Meyer struck Geiger on the head with a cane, knocking him down and inflicting an ugly scalp wound. Both were arrested, and both pleaded guilty in the First District Police Court Monday. Meyer acted as spokesman.

"We are too old to fine, Judge," he said, "we are old friends, and if you will let us go this time we will both leavy town."

"All right," replied Judge Feabody, "I will fine you both flo and stay the fines till e'o'clock Tuesday night."

A footsore and weary family, consisting of John Epps, his wife and five children, the John Epps, his wife and five children, the oldest of which is 13 years and the youngest a babe in arms, passed through the city during the morning on a weary march from Memphis, Tenn., to the Indian Territory. About four weeks ago their home and all its contents were burned to the ground, leaving them penniless. Having no means to procure a livelihood the entire family started the next day to walk to the Indian Territory, where Epps has a brother who will give him employment. The entire family presented an extremely delapidated appearance, having scarcely enough clothing to cover them. They carry all their worldly possessions in a little hand-cart, which is drawn by the father. The mother carries her babe and the other children struggle along behind.

WATCHMAN M'COURT'S STORY

Claims He Was Drugged as an Excuse for Beating a Boy.

E .B. McCourt, a private watchman, was arraigned before Judge Peabody charged with brutally beating George Ernst, 12 years old, of 2929 Chouteau avenue. The boy test fied that he met McCourt Sunday morning at Pine and Garrison avenue. The latter was under the influence of liquor, and without provocation struck him twice across the back with a billy. Ernst reported the matter to the police and McCourt was arrested. The prisoner stated that he had no recollection of having seen the boy, but said his story might be true. He gave as an excuse for his lack of memory that he went into a saloom at Fifteenth and Morgan streets when he finished work Sunday morning and took a drink of whisky. He said that the whisky was drugged, as he jost possession of his senses immediately after. McCourt claims that a man who previously watched on his beat is responsible for the liquor being drugged. This man he claims is trying to get the beat back and is doing everything in his power to injure him. fied that he met McCourt Sunday mo
